# GREGGIO

Gruppo Greggio, one of Italy’s most prestigious and world-renowned silver manufacturers, was established in 1948 by Rino Greggio who sold his bicycle for 21 Lira to buy his first kilogram of silver. Today the company has become one of the world’s largest purveyors of sterling silver and silver plated items. Greggio’s infamous designers have access to an impressively large and advanced archive of shapes and styles to draw upon and combine state of the art technology with old world techniques to produce stunning pieces.

With a key strength in the gift category, Greggio offers an immense array of items for every occasion.

Every single phase of silver workmanship is carried out exclusively in Greggio’s own factory based in Padova, Italy, and the entire manufacturing process, from design to hand polishing is completed within the same facilities, ensuring exceptional quality, craftsmanship and design.

Greggio Silver is made for all moments in life!

HOW TO BEST CARE FOR GREGGIO

- Silver is a material easy to clean and maintain; the more it is used, the more beautiful it becomes.
- When silver comes into contact with Salt, Lemon, Parmesan cheese or Vinegar, it must be washed under running water and dried thoroughly.
- Never clean candlesticks and candelabras with liquid (there are many soldering and empty cavities inside) For those products we recommend using an anti-tarnish cloth.
- Cutlery is a material easy to clean / maintain such as plexiglass. You can use them daily without worrying about scratching.
- You may wash your Greggio Silverplated pieces in the dishwasher with a non-aggressive detergent and no salt; Do not leave silverplated items wet for very long.

The silverplating of the production for hotel and food industry is very thick and made with pure silver 999.5%. A 35 micron thickness is applied to cutlery and 15 microns on hollowware. Silverplating is thicker on rims and points which can be easily scratched. Our silver plating process is carried out by using very pure silver, free from any element that can affect its malleability and silver brightness. Our Galvanic silverplating gives nickel an excellent protection and guarantees long lasting and durable items.

# DOGALE

Venezia by GREGGIO

Dogale is the perfect marriage of two timeless and luxurious materials, glass and silver, made by Gruppo Greggio. Founded in 2004, Dogale creates one of a kind gift items and decorative pieces based upon the traditions of ancient Venetian glass-making art combined with distinct modern shapes and dazzling pops of color. Dogale is inspired by observing the nature playing with geometric patterns, colors, and combinations of light. The brand is committed to reinventing new collections every season with original shapes, colors and textures. Six different production stages, three firing phases, and highly-skilled glass blowers come together to create each finished Dogale piece. Dogale offers a wide range of products including statement-making bowls, vases, and plates of different dimensions and luminescent colors, capturing an emerging class of consumers looking for beautiful, high-quality and innovative pieces.
