## PROUNA®

FINE BONE CHINA

PROUNA Fine Bone China is a global project created by selecting the world’s most renowned artists and designers and bringing their vision together in a range of new luxury tableware.

There have been numerous attempts to fuse exquisite artistic essence with ceramic functionality, but no one has yet come close to achieving this long sought after goal. Now PROUNA has made this dream a reality as it has pioneered the art and technology of embedding elements of Swarovski Crystal onto fine bone china.

In a unique collaboration bringing together the finest artists, designers, ceramic engineers and raw material with the most advanced ceramic techniques, a concept has been born that all at once reflects sensitivity of shape, enhancement of design and the excellence of superior quality ceramic.

PROUNA is a whole new concept in luxury chinaware and has been created by unifying the very essence of art and functionality.
